

# RESILIENCE

## THE BIOLOGY OF STRESS & THE SCIENCE OF HOPE

### RESILIENCE: THE BIOLOGY OF STRESS & THE SCIENCE OF HOPE

chronicles the birth of a movement among pediatricians, therapists, educators and communities, who are using cutting-edge brain science to disrupt cycles of violence, addiction and disease. However, as experts and practitioners profiled in *RESILIENCE* are proving, what's predictable is preventable. These physicians, educators, social workers and communities are daring to talk about the effects of divorce, abuse and neglect.

**"This is the biggest public health discovery we've ever seen."  
- Laura Porter, Co-Founder, ACE Interface**

Join us for a **free** screening of *Resilience*, followed by an expert panel discussion facilitated by Prevent Child Abuse Illinois on the impact of Adverse Childhood Experiences (ACEs). Don't miss this opportunity to learn and engage!
